Dear Mrs. Dolan,

Gary Schoener has informed me of your intresting inquires. Good luck with them, Glad you are doing them.

He loaned me the two enclosed Commission papers on Larry Crafard and asked that I return them to you.

When you and he learn what pictures are available in the Archives, I'll be glad to examine them for you. I'll be in Washington again in two weeks anyway.

When you start checking False Oswald's, what an enormous task you have undertaken. I think Crafard undoubtedly is one mistaken fro LHO, but I do not believe he really participated in anything. Not on the basis of what I know, anyway. But your reconstruction of his flight and the official handling of it are fascinating and, I think, important.

He should know and suspect much we cannot.

Best regards,

Harold Weisberg
